## VOTE OF CONFIDENCE FOR WIRTH IS SHAKY

Chancellor May Have Reichstag Dissolved to Force New Elections.

## WANTS MORE SUPPORT

Gaps in Present Three Sided Bloc Disclose His Predicament.

## EFFORTS FOR COALITION

Democrats Desperately Try to Coax German People's Party Into It.

By the Associated Press.

BERLIN, June 5.—The Wirth Cabinet for the time being owes its continuance in office to the vote of the Independent Socialists, who late on Saturday granted the new Government the votes needed to carry the vote of confidence proposed by the three coalition parties. [The vote was 213 to 177, with forty-eight members abstaining.] The Reichstag thereupon entered upon a ten days' recess, during which the Ministry will draft tax and other financial measures it deems necessary for fulfillment of the ultimatum obligations. In the meantime parliamentarian circles are concerned with two eventualities in consequence of the present instability of the Government's support in the Reichstag.

One of these has to do with the peremptory dissolution of the Reichstag through the initiative of Dr. Wirth. The Chancellor is reported to be contemplating such a move, confident in the expectation that new elections will give a coalition in which he can place reliance. If, on the other hand, the present Reichstag continues to stand, the Wirth Government will be unable to recruit an active working majority, and the Cabinet's retirement must be reckoned with.

The speeches and balloting on the issue supporting the Wirth programme showed startling gaps in the cohesiveness of the present three party bloc and emphasized the Chancellor's predicament in connection with the prospective support for his reparations legislation. While the Democrats are desperately trying to coax the German People's party into the coalition, the Majority Socialists continue their pronounced antagonism to the suggestion that they cooperate with Dr. Stresemann's party (German People's party). To this extent the coalition on which Dr. Wirth is building appears to be a house divided against itself.

The Chancellor, realizing this, is prepared to trust his fortunes to new elections immediately rather than run the chance of exposing himself to defeat in the Reichstag, which is viewed as inevitable ultimately because of his inability to construct a reliable supporting majority out of the present party chaos. The Majority Socialists are reported to be organizing for new elections, which, it is thought, may accomplish union of the Scheidemann party with the Independent Socialists. Since the migration of the ultraradical members of the Independent Socialists to the Communist camp, the Independents are believed to be ripe for a truce and the two Socialist factions are no longer fundamentally far apart on their platform.

The fact that the German People's party cast blank ballots when the vote on confidence was taken enables their Chancellor to emerge from the initial test with what is considered a respectable majority, although it was admitted in Reichstag circles after the session that the "confidence" voted the Cabinet was severely encumbered. That the vote was wholly without strength also is admitted by Germanists, the organ of the Clericals. This paper, which is close to Dr. Wirth, says: "The vote unfortunately failed to afford a definite solution of the situation."

The *Freiheit* informs the Chancellor that the Independent Socialists, who temporarily came to his support, still view the Government with scepticism and that the duration of their support will depend entirely on the nature of the Cabinet's accomplishments.

## DRUG HABIT CAUSES BERLIN STAGE STAR TO END LIFE

Harry Walden Cuts Artery With Razor and Dies With His Stepson; Frau Walden Not Expected to Survive Similar Wound.

Special Cable to THE NEW YORK HERALD. Copyright, 1921, by THE NEW YORK HERALD. New York Herald Bureau, Berlin, June 5.

The drug habit proved the tragic undoing of the talented Harry Walden, and despite a career of unbroken success the well known Berlin actor died with a razor after cutting an artery with his stepson. Frau Walden, also an actress, is not expected to survive a similar

wound. Walden tried to kill himself recently in Vienna. It was known by all his colleagues on the stage, where he was acting the leading role in Molnar's "Devil," that the once debonair matinee idol was a broken, coughing, drug addicted, morbidly depressed invalid. Walden won his first real fame at the Burg Theatre in Vienna, and was one of the most popular Berlin stage heroes as the Prince in "Old Heidelberg," and in classical roles.

## KING EXPECTED AT ULSTER PARLIAMENT

Generally Believed That British Monarch and Queen Mary Will Attend.

By the Associated Press.

BELFAST, May 5.—While official announcement is being withheld, it is generally accepted that King George and Queen Mary will attend in state the opening of the Ulster Parliament and that they will travel to Bangor, the home of the famous Royal Ulster Yacht Club, under the flag of which Sir Thomas Lipton's yachts have raced, in the royal yacht accompanied by warships.

King George has not set foot in Ireland since his visit to Dublin a decade ago.

The most Rev. Charles F. D'Arcy, Primate of the Anglican Church in Ireland, assisted by other church dignitaries, participated to-day in Belfast Cathedral at a service of intercession in connection with the opening of the Ulster Parliament.

Saturday evening John Brady, the son of a solicitor, who was sitting with a companion on the sea wall in Dublin, was shot and killed by a rifle firing on bicycles. Brady's companion, who was wounded, died later.

Last night auxiliaries are reported to have fired into a crowd in Dublin, killing a young Member of Parliament and wounding another man and a woman.

## OMSK CAPTURED BY ANTI-BOLSHEVISTS

Reds Are Withdrawing Toward Tobolsk, According to Semi-Official Reports.

## RISING AT EKATERINBURG

Kappell Army Prevents Gen. Semenov from Landing at Vladivostok.

By the Associated Press.

TOKIO, June 4.—Omsk has been captured by anti-Bolshevik forces and the Bolsheviks are withdrawing toward Tobolsk, according to semi-official reports from Siberia.

Other despatches received here tell of an anti-Bolshevik revolutionary movement in Ekaterinburg, while advances from Japanese sources report that an insurrection which broke out recently in Moscow was suppressed with difficulty with the assistance of Communist sailors from Petrograd. The situation, however, is described as still serious.

Latest advices from Vladivostok declare that the Kappell army prevented Gen. Semenov, the anti-Bolshevik leader, from landing there. Guards were placed on the docks and simultaneously several members of Semenov's self-styled Cabinet were placed under arrest. These followers of Semenov had proceeded to Vladivostok from Harbin to support the cause of which he was to be the head.

The foreign consuls informally voted that until the population had an opportunity to decide the form of government it desired Gen. Semenov should not be permitted to land. Many Cossacks welcomed the coming of Semenov, with the result that the situation has grown somewhat tense.

Russian newspapers in recent issues declare there is a close connection between the anti-Bolshevik movement in Vladivostok and the "Intelligentsia." It is asserted in a Harbin despatch to the *Jiji Shimpō*, the Conservative organ. It is said that journals published in Harbin urge the necessity of the anti-Socialist factions abandoning their strife if they hope to set up a responsible Government in the maritime province of Siberia.

A special despatch from Chita says that the trans-Baikalian cavalry was ordered by the Government of the Far Eastern republic to begin operations against the anti-Bolshevik groups further east. One detachment was ordered to advance on Khabarovsk and one was instructed to return to Chit for the purpose of defending the city. They decided not to obey either order, it is said.

The Chita Government, says the *Yomiuri Shimbun*, has despatched another note to Tokyo declaring that if Japan will evacuate Siberia the Far Eastern republic will agree to any terms Japan will propose.

## FRENCH ULTIMATUM IS SENT TO HOEFER

Unless Germans Retire in Part of Upper Silesia French Will Withdraw.

By the Associated Press.

OPPELIN, Silesia, June 5.—An ultimatum has been issued by the French to Gen. von Hofer, saying that French troops in the industrial section will be withdrawn unless within twenty-four hours he withdraws the German forces that advanced several kilometers in the Annaberg sector in Upper Silesia after the insurgent attacks Friday and Saturday.

The ultimatum, delivered by a British liaison officer, was merely acknowledged by Von Hofer. It was not answered, but an appointment has been made for a meeting at Oppeln at 11 o'clock tomorrow morning between Von Hofer and Gen. Hunneker, the British commander.

At his Krappitz headquarters this afternoon Gen. von Hofer said: "Negotiations are proceeding. I am not at liberty to discuss the ultimatum. There is no understanding between the Germans and the British in this matter. All we want is to reestablish order and assure the security of property and lives."

"You can understand our reluctance to withdraw our advanced forces from an area that already has been ravished by insurgents and which again would be at the mercy of bandits."

## CHARGES JAPAN SEEKS NEW SIBERIAN INVASION

London Labor Organ Reports Wrangel in Plot.

LONDON, June 5.—A despatch to the *Daily Herald*, the labor organ, from Moscow says the Soviet Government has definite information that Japan has arranged to transfer the troops of Gen. Wrangel, the former anti-Bolshevik leader in southern Siberia, to Vladivostok.

The plan, according to the correspondent, is for Gen. Wrangel to unite with the remnants of the armies of Gen. Semenov and Gen. Kappell and attempt a new invasion of Siberia along Admiral Kolchak's old route. Workers and peasants in eastern Siberia are preparing for stubborn resistance until the Bolshevik armies come to their aid.

The despatch adds that M. Tshitcherin, the Bolshevik Foreign Minister, has protested vigorously to Great Britain, France and Italy, saying that if Wrangel's troops are sent to the Far East Russia will consider the Entente responsible. The note, it is said, charges that Japan has set up a "white" Russian Government in Vladivostok.

## ANTI-BOLSHEVIK MILITIA HALTS GEN. SEMENOV

Cannot Enter Vladivostok and Followers Are Arrested.

PEKING, June 5.—Anti-Bolshevik militia at Vladivostok has prevented the landing of Gen. Semenov, who recently left Dalny to take charge of the new revolutionary movement there.

It is declared the militia acted with the approval of the consular body in Vladivostok, members of which agreed that the presence of Gen. Semenov was not desired, at least until the population of the Siberian maritime province had been given an opportunity to express some desire regarding the character of the Government to be established. Several followers of Gen. Semenov who recently arrived at Vladivostok are said to have been arrested.

Reports from Nikolai say the troops formerly commanded by the late Gen. Kappell are advancing toward Khabarovsk, and have defeated a Bolshevik detachment near Iman.

## DAY, SYRACUSE HEAD 27 YEARS, TO RESIGN

Chancellor, Now in His 76th Year, Will Travel and Write.

## WORKS ON LIFE HISTORY

Believes Control of 5,000 University Students Is Too Much Labor at His Age.

By the Associated Press.

SYRACUSE, June 5.—Dr. James Roscoe Day announced to-night that he would offer his resignation as chancellor of Syracuse University at a meeting of the board of trustees on Friday. Chancellor Day, who will be 76 years old on October 17, will complete with commencement this week twenty-seven years at the head of the university.

"I feel that I owe to my wife and daughter a closer companionship in my remaining years," Chancellor Day said in making known to the *Post-Standard* his intention to retire. "They have been fearful of my welfare if I give up my work, fearing that the reaction, the freedom from labor, might break my health. But they are now convinced that my mind and my heart are set upon several years of travel and study and work of a less wearing sort."

"I want to be relieved of the great responsibilities, the numerous burdens and the endless detail of conducting so great an institution as a university with more than five thousand students. I have been able to do a prodigious amount of work in the past because of the strength of body which was given to me, but this must come to an end."

"I shall never free my mind, of course, from close association with Syracuse University. I shall always stand ready to do anything to help her. The university has been, and always will be, the biggest part of my life."

"Many of my friends have been telling me for some time that I ought to devote more of my time to writing. The only way I can do that and the only way I can get to the books I want to write—among them one already started—is for me to cut away from the chancellorship. Only through freedom of time and freedom from direct personal obligations upon me can I properly reflect upon the incidents of my 75 years for the book of my life which so many have asked me to write."

Dr. Day in 1904 threw a Methodist General Conference into a state of consternation by declining a Bishopric after his election on the fourteenth ballot—an action which had no precedent since 1829. His spirited defence of the Standard Oil Company, of the late John D. Archbold, its vice-president and a heavy contributor to Syracuse University's finances, and of the business methods of large corporations generally, was

## RUSSIAN LEARNED MEN NOW BEING CARED FOR

Helsingfors University Sending Food to Them.

By the Associated Press.

STOCKHOLM, June 5.—The representatives of Helsingfors University have begun distributing much needed food to the Russian learned classes in Petrograd.

Finnish representatives of the university report that the food situation in Petrograd is bad. A small amount of bread is being distributed to members of the Red Guard, but other members of the population are obtaining only small portions of herring.

## SWEDEN TAXES LUXURIES.

Import Duty Doubled and Trebled in Many Cases.

STOCKHOLM, June 5.—Both chambers of Parliament have adopted the Government bill doubling or trebling the import duty on luxuries, including gold and silver goods, platinum, spices, fruits, silk goods, plumes, fans, jewelry, oysters, hops and flower bulbs. The lower chamber, however, refused to increase the duty on watches.

Previously the Riksdag, after a lengthy debate, had rejected a Government bill opposing temporary protective duties.
